MAD FOR MEDIA

Hi!

My name is Caine Batley. Mad for Media is my business because, you guessed it, I'm mad for media! When I'm not taking photos or video, or occasionally playing video games... I'm researching ways to improve my skills and convince my wife to invest in even more fancy equipment!

I love helping people relax and have fun with photography. Posing for the "perfect shot" can be awkward, but when lifestyle photography is your style you are primarily a documentarian. This means I'm particularly interested in capturing those special moments as they happen, only using gentle prompts where needed. That's why I love wedding and event photography & videography.

You create the moments. I record them for you.

PHOTOGRAPHY BY CAINE BATLEY

Weddings

SERVICES & PRICE GUIDE

SERVICES

How I Shoot Weddings

I approach wedding & event photography and wedding & event videography in a similar way. As a photographer who leans towards lifestyle photography, my aim is to capture the reality of the moment more than it is to manufacture moments. While posing is sometimes necessary, I aim to rely minimally on posing, guiding with gentle prompts or tweaks for key portraits.

It's your moment

When you're at your wedding or event you want to be enjoying your day. That's why working together and properly planning your event are so important. When I know your priorities I can focus on the essentials and capture those gems as they happen.

Your goals will direct how I setup, whether we need one or two camera operators, whether we need to make any adjustments, and where it will be important for me to step in to ensure certain shots are captured.

When it's time to edit, I understand that a well edited photograph is one that doesn't look edited. I don't want to change the way things actually looked, but I do want to highlight the strength of each scene.

Good preparation, as well as an ability to go with flow as the day shapes itself, are both essential elements in producing great photos and video.

The Experience

ONE

Pre-Wedding Preparations

Before your wedding day we aim to meet at least once, ideally at the site of your wedding ceremony. We'll discuss the setup, your key moments, and how you plan your day to play out.

TWO

Wedding Day Preparations

If this is included in your package we meet at your preparation location to take images of your details (rings, dress, ties...), and pre-wedding photos. This can include getting ready images (hair, make-up, dressing) or images of bridal party, ready to go.

THREE

Wedding Ceremony

The key event! Here we document the couple as you walk through those key ceremony moments.

FOUR

Formal Portraits

This is the most popular addition where posed family and bridal party portraits are taken, immediately after the ceremony.

FIVE

Reception

If you include reception elements, we will be there to record key formalities such as first dance, cake cutting, and speeches.

How It Works

ONE

Talk To Us

Check out our examples, chat to us, and make sure you are comfortable with our style and who we are

TWO

Understand Your Priorities & Inclusions

When you know what you want from your photos or video you can ensure you have the right inclusions for your goals. Note that photography/videography service time, this includes the time we are on site for your day, including any travel and setup time between different venues.

THREE

Choose Your Package

Choose one of our standard package options or ask us to tailor a package to suit your goals and desired inclusions.

FOUR

Attend Pre-Planning Meeting/s

Your involvement in planning and preparations is key!

FIVE

Enjoy Your Day!

We have those planning meetings so that we can get to it on the day without disturbing you. More than this, knowing your priorities means we can help ensure they happen. This way you can just get about your day, and enjoy it!

The Team

Caine Batley

Mad for Media is by business and I am your main photographer or videographer.

I have extensive experience in professional videography and photography, as well as other technical and creative pursuits.

I believe the most important things you can do to help ensure we meet your goals are:

- Plan well
- Be comfortable
- Trust me

Rebekah Batley

In addition to being Caine's wife, I am his assistant photographer and videographer. I also manage the backend of the business and try to hold Caine back from "investing" too much in all the impressive technology that comes with working in photography and videography.

Wedding Packages

WEDDING VIDEO ALBUM

Your customised wedding video album looks gorgeous and gives your visitors a stunning display of your wedding film. It's the convenience of a portable album, just like a photo album, but with your wedding film inside!

Your album comes in a handy storage box, including the cable, so you can keep everything together.

Simply open your video album to see your wedding film play.

Control functions include volume adjustment, play/pause, and skip forward/backwards.

This album is already included in a Standard or Comprehensive Videography package. Additional Albums can be ordered from \$450 each.

Perfect Pairing

IN THE BOOTH PHOTOBOOTHS

Photobooths are a great way to add entertainment and guest photographs to your reception. While we take care of the formal photos, your guests have fun posing In the Booth! Entertainment on the night + Photos to keep forever.

We've chosen to partner with Darryl and Juanita Shepperson, who run the award-winning photobooth operation "In the Booth" branch in Mackay. We have confidence that their team will help ensure your guests have fun while adding to the amazing memories of your day.

To help ensure you join in the fun, we have included cashback offers with our Standard and Comprehensive packages when you add an In the Booth booking to your wedding day.

However, In the Booth is also a great addition to the Ceremony package options as this way you still get photos from your reception as well!

Check out more details on www.inthebooth.com.au

Special Weekday Deals
